PROSPECTS FOR COMING SEASON INDICATE A RECORD BREAKER.

Trade conditions throughout the country are good. Manufacturing establishments are busy and work is plentiful. This condition of affairs is George S. Sims, rear 867 West North exemplified in Salt Lake and vicinity C better than in most any other part of the union. While some of the retailers are complaining of the lateness of the season, saying that the heavy snowfalls and bad weather of the past few weeks has had a tendency to keep back their spring trade, others are telling of good showings and fine prospects.

weeks has had a tendency to keep back their spring trade, others are telling of good showings and fine prospects.

The past week has been one of retail spring openings in Salt Lake. Every dry goods house in the city has had a special spring opening day. The amount of trading has been above the average for that reason.

Dry Goods Offerings.

Dry goods offerings for the coming season are prettier than ever before. Soft fabrics giving a clinging effect are being shown in great profusion. White and cream white gowns will be stylish this season. The quality of all goods is high grade. Prices are rather high, as well. This is said to be occasioned by the shortage in the wool clip. as well. This is said to be occasioned by the shortage in the wool clip. Wool has gone up 5 per cent since the first of the year, making finished woolfirst of the year, making finished wool-en fabrics cost proportionately more than heretofore. The millinery shopkeepers put in last week getting ready for the great spring rush. All windows are full of beautiful

bank clearings. From the reports received yesterday Salt Lake is second in the list with an increase of 76.3 per cent. The total clearings amounted to \$4,518,107. Seattle, Wash., still leads Salt Lake by a fairly large margin.

That Salt Lake should continue to be one of the leaders in bank clearings increase is a significant fact. It shows, it is said, that this city is one of the strong and growing financial centers. The immense amount of work going on around the city, that is the building of around the city, that is the building of smelters and great reduction works, plays an important part in the bank showing. However, when the construction work ceases, there will be an army of workmen to take the places of the of workmen to take the places of the laborers now doing the construction work. This will have the direct tend-ency to keep bank clearings large.

Real estate men have complained a little during the past week on account of the small number of sales consumreason to believe that he really exists.

The brokers are not quite sure as to the cause of the slump. Most of them attribute it to the fact that March is in the nature of being between seasons. The spring rush for homes has not yet begun and the winter demand is past. Several business properties are under consideration by investors, according to report.

The demand for furnished houses is

The demand for furnished houses is Tourists are beginning to wend their here. The tourist travel, those come west for a stay of several weeks or months, are the ones who occupy most of the small furnished apartments and houses. All classes of rental property are in demand, it is said.

Boot and Shoe Trade.

Boot and shoe men are not experience ing any great trade at present. It is yet too early for spring and summer shoes and a little late to sell much heavy winter footwear. Rubbers are not selling well. Within a few weeks conditions in the shoe market will change it is believed, for most everyone will lay off his winter boots for lighter spring and summer ones. shoeman's good season is still before

The opening of spring is the signal for the beginning of active residence construction. This means that hardware especially builder's hardware, will be in demand from now on. From the prospective amount of work to be done in all lines of construction the coming season's business will be one of great gratification to hardware dealers.

Farming implements are beginning to grow in demand. Several dealers report that from present prospects more farming tools and implements will be sold than at any time in the past de-cade. The reports show that the winer wheat crop is safe. Plenty of snow has piled up in the mountains during the past several months to warrant the statement that water for irrigation work will be abundant. This means that crops will be large. The implement men will share with the farmers

try merchants are beginning to replenish their stocks. All trains going out of Salt Lake for the country districts are laden with groceries and provisions to meet this demand.

The commercial stock and bond mar ket has been fairly active during the rus, but the inquiries indicate a lively nterest in local securities. Consolida ted Wagon and Machine stock was one of the heaviest sellers of the past week Wollowing are the latest quotations or
